A) Dr. E.F.Codd B) Dr. E.M.Codd
C) Dr. F.E.Codd D) Dr. E.N.Codd
- 15 MS Access is -----database management system.
A) Relational B)Unique C)Multiple D)Advance
- 16 Relational model represents relations using-----
A) Pointers B)Keys C)Class D) None of these
- 17 What is called the method of MS Access to implement series of actions?
A) Form B) Macro C) Details D)Reports
- 18 In how many sections form design view is divided?
A) 2 B) 5 C) 3 D) 4
- 19 To see design view of the form which button has to be clicked?
A) Datasheet view B)View
C)Show D)Print View
- 20 Which button is used to add the fields one by one in the “selected field” list box?
A)> B)<< C)>> D)<
- 21 Which option is selected from the Zoom box to fit the content on one screen?
A) Fit B)AutoFit C)Fit To Screen D)None of these
- 22 Which of the following is the default layouts provided by Access while creating a Form?
A) Tabular B)Columnar C)Datasheet D)Justified
- 23 Which of the following action of Macros is used to Open Form?
A) New Form B)Open Form
C)Form Open D)Form Name
- 24 What is used to create a Label?
A) Report B)Query C)Form D)Macro
- 25 Which menu command is used to edit report if you are viewing final report?
A) Edit/Design view B)Edit/Change view
C) View /Edit view D)View/ Design view
- 26 Which query is used to extract certain specific information from the database?
A) Action query B) Cross tab query
C) Select query D) Parameterized query

- 27 What is the result known as by running the query?
A) Dinosaur B) Dynaset C) Dynameters D)Dynamics
- 28 To show information between two different fields which operator is available with Access?
A) Center B) Between C) And D) Nil
- 29 To remove specific record group from one or more tables; which query is used?
A) Make-Table query B) Delete query
C) Cross tab query D) Parameter query
- 30 Which of the following is Logical operator?
A) OR B) NOT C) AND D) All of these
- 31 Which query makes global changes to a group of record is one or more tables?
A) Append B) Delete C) Update D) Make-Table
- 32 Which of the following matches any single character from the given brackets?
A) { } B) () C) [] D) !
- 33 To save a query for later use, select---option from the File menu.
A) Save B) Store C) Future Use D) Save for Later
- 34 What is the criteria to display list of students who joined before 1st July, 2006?
A) < #1/7/2006# B) > #1/7/2006#
C) <= #1/7/2006# D) >= #1/7/2006#
- 35 Which special operator can be used instead of Logical operator “OR”?
A) Like B) Between C) In D) Is
- 36 The combination of any one or more fields, which values are taken from other tables; what is it called?
A) Right Key B) Foreign Key
C) Field Key D) Record Key
- 37 The relationship established between two tables can be ----by us.
A) Edited B) Deleted C) Edited or Deleted D)None of these
- 38 How many types of relationship there can be between any tables of the database?
A) 2 B) 4 C) 5 D) 3
- 39 When a record of one particular table has many related records in the referential tables of database; which relationship it its called?
A) One to Many B) One to One
C) Many to Many D) Many to One

- 40 Which property is used to adjust field size to small or big?
A) Field Weight B) Field Type C) Field Format D) Field size
- 41 In text data type with what limit any one value can be typed?
A) 1 to 255 B) 1 to 155 C) 1 to 250 D) 1 to 265
- 42 Which property is never used with the Auto Number and Ole Object ?
A) Field Size B) Caption C) Default value D) Format
- 43 If the date of tomorrow is 12/7/2006 then the output of Date() function is ----
A) 12/7/2006 B) 11/7/2006 C) 13/7/2006 D) 12/7/2005
- 44 Which of the following specify the Long time format?
A) 5:34 PM B) 17:34
C) 5:34:23 PM D) 19/6/1994 5:43:23 PM
- 45 What should be set while designing the table, to control and validate the data at the time of data entry ?
A) Field Name B) Field Properties
C) Field Type D) Field Description
- 46 Which data type field's detail can not be changed?
A) Number B) Auto Number C) Memo D) Text
- 47 In MS Access, while creating a table the default data type displayed is ----
A) Yes/No B) Number C) Text D) Auto number
- 48 Which button moves the cursor to the first record
A) |? B) ? C) ? D) ? |
- 49 In database terminology, the rows of the table are known as-----
A) Field B) Table C) Record D) Title
- 50 To get detailed help through MS Access which key is used?
A) F11 B) F2 C) F5 D) F1
-
